

## Deployment Of App In IBM Cloud

Team ID	PNT2022TMID21703
Project Name	Inventory Management System for Retailers

### Deploy in Kubernetes Cluster

Deploy on kubernets

The screenshot displays the IBM Cloud Clusters management interface. At the top, the cluster is identified as 'mycluster-free' with a status of 'Preparing master, workers...' and a red banner indicating it 'Expires in 30 days'. A 'Kubernetes dashboard' button is visible. The left sidebar shows navigation options: Overview, Worker nodes (selected), Worker pools, and DevOps (marked as 'New'). The main area shows a table of worker nodes. One node is listed with the name '000000c9', status 'Deployed', worker pool 'default', zone 'Milan 01', private IP '10.144.213.108', public IP '169.51.206.6', and version '1.24.7\_1543'. The table includes search and filter controls at the top and pagination at the bottom.

Name	Status	Worker pool	Zone	Private IP	Public IP	Version
000000c9	Deployed	default	Milan 01	10.144.213.108	169.51.206.6	1.24.7_1543
