

Implementing Web Application

Name	Surya GM(team member)
Roll no	142219104132
Team ID	PNT2022TMID21703
Project Name	Inventory Management System for Retailers

TASK

➤ Create UI to interact with application

- Registration Page
- Login Page
- Display items in the Dashboard
- Adding items
- Test it

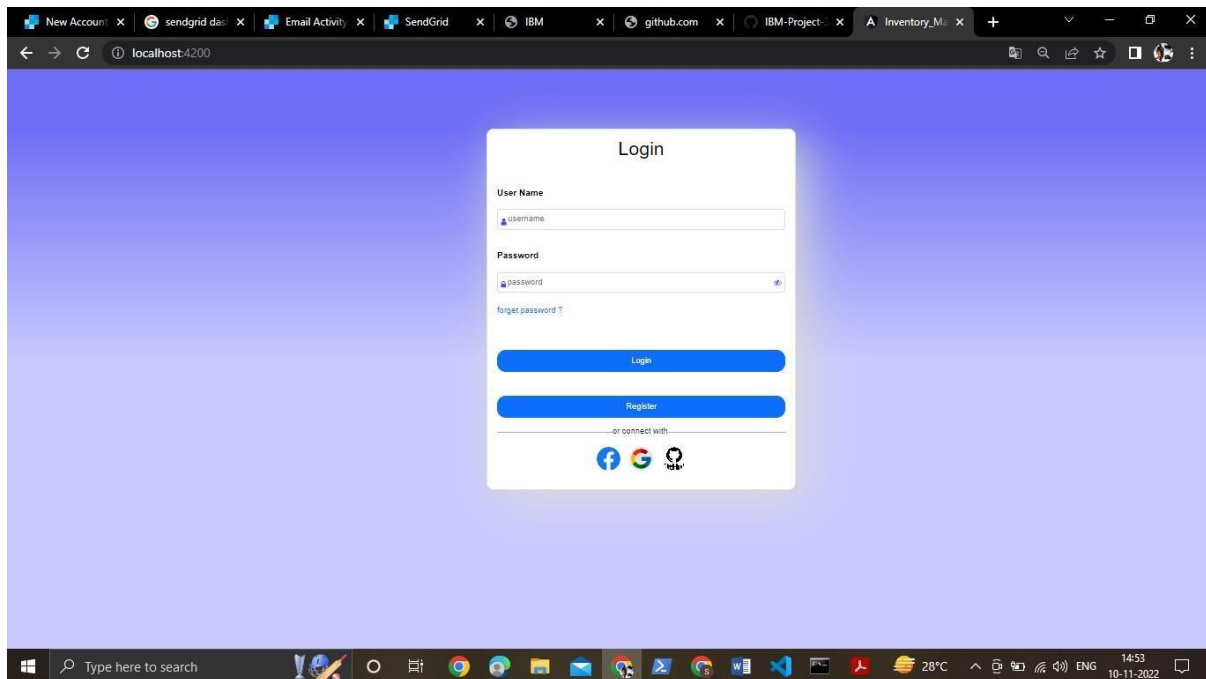

➤ Create IBM DB2 and connect with Node.js

Create UI to interact with application

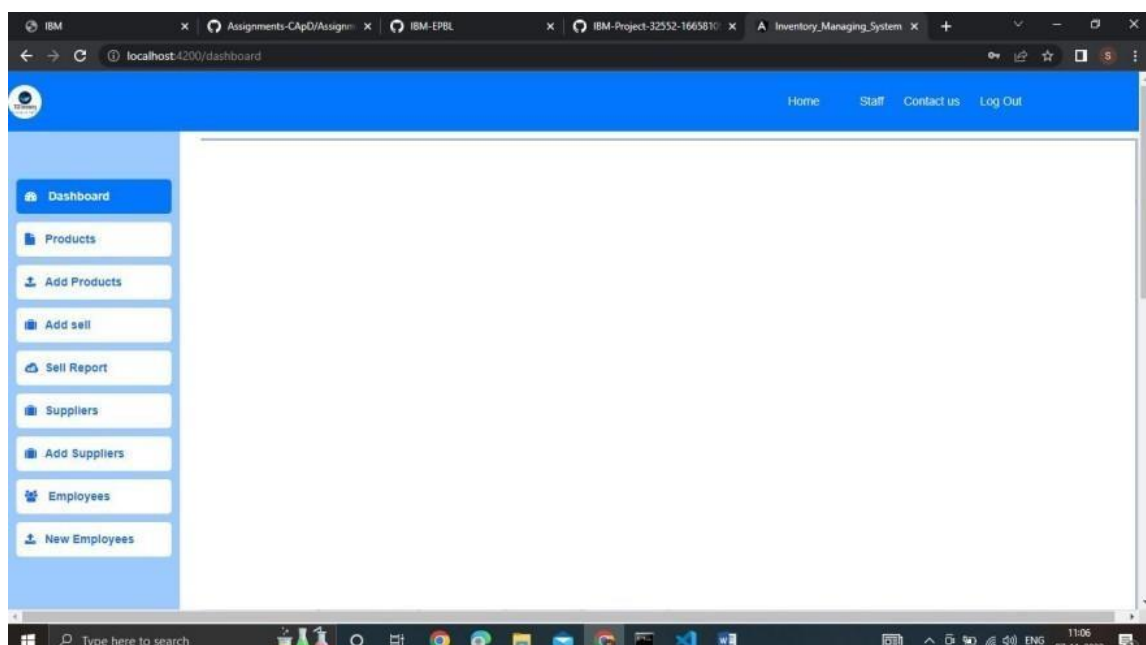

Registration Page

The screenshot displays a web browser window with multiple tabs open. The active tab is titled 'Inventory_M' and shows a 'Create New Account' registration form. The form is centered on a purple gradient background. It includes input fields for 'User Name', 'Email', and 'Password', each with a small icon to its left. Below the fields are two blue buttons: 'Register' and 'Login'. A link that says 'Already Have an Account' is positioned between the two buttons. The browser's address bar shows 'localhost:4200/signup'. The Windows taskbar at the bottom shows the search bar and various application icons.
